

Observer(s): _____

Tree ID	Species	Date	Leaves % Open	Flowers % Open	Fruits % Mature	Comments, location, problems, photos notes and number, tree height/circumference, etc.

Species: FC=Fremont Cottonwood, NC=Narrowleaf Cottonwood, GW=Gooding Willow, BW=Bonpland Willow, AS=Arizona Sycamore, BW=Arizona Black Walnut, AA= Arizona Alder, VA= Velvet Ash, BE=Box Elder
Leaves/Flowers/Fruits: Estimate percentage over the whole tree, use binoculars to view upper branches

Digital photos with a GPS-enabled device are highly preferred. Use photos to illustrate emerging leaves and flowers and developing fruits. Photograph a card or sheet of paper with Tree ID & date written and the tree in background so photos can be matched with data.
